Date Of Birth

Create Password

3

Connect your phone to your Home WiFi Network.

Go to the WiFi settings on your phone and make sure your phone is connected to the home WiFi network.

Do not connect to the network Kubuhomehub.

4

Unpack your smart hub and connect the USB into the power adapter.

Next, plug into a wall socket. The smart hub will start flashing.

15m MAX

To get maximum performance, make sure the smart hub is in a good WiFi spot and no more than 15m distance from the doors that are using Kubu

5

Ensure your home WiFi network is showing and enter the password correctly.

SMART HUB CONFIGURATION

Enter your Wi-Fi password and set your home perimeter fence.

Tick the box to set your WiFi perimeter fence and never leave your door unlocked again!

Tick the box below to set your home perimeter Wi-Fi fence. Ensure the app is kept running in the background and never leave your door unlocked again!

☐ Tick

and you have entered the correct password

6

The Kubu home hub will configure and connect to your home WiFi.

It may take around 1 minute.

SMART HUB CONFIGURATION

CONNECTING HUB TO HOME WI-FI

Your Kubu Home hub is configurating to the home Wi-Fi.
